

# Join the World Stroke Academy!

## Who we are:

The WSA Editorial team carries multiple responsibilities, from managing editorial decisions and leading strategic directions to disseminating and enhancing the knowledge of stroke around the world in support of the WSO vision. We are a team that welcomes new ideas and fosters diversity of opinions to achieve excellence.

**Gustavo Saposnik**  
*Editor-in-Chief*

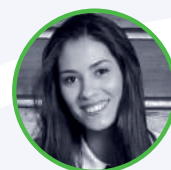

**Anita Arsovska**  
*Assoc.  
Commissioning Editor*

**Alina Schwarz**  
*Executive Manager*

**Rodrigo Guerrero**  
*Social Media Leader*

**Florencia Casagrande**  
*Communications  
specialist*

## What we do:

The WSA facilitates educational materials for healthcare professionals in a variety of formats to meet the needs of the WSO membership, with the support of the WSO Committees and the Stroke Connector programme. The WSA also provides the technical support for, and coordination of, WSO online educational webinars and social media activity and coordinates outreach activities for the WSO (Education Committee, Research Committee, Stroke Connector, WSO World Stroke Campaign).

## Why we do it:

The vision at the World Stroke Organization is a world where people live free from the effects of stroke. The WSA is aligned to this vision and aims to promote professional stroke education and raise awareness of WSO as a global leader in stroke.

The current goals of the WSA are based on strengthening three pillars:

**1**

**Teamwork and  
collaboration**

**2**

**Facilitating access to  
practical and high-quality  
material relevant to our daily  
stroke practice**

**3**

**Supporting the vision  
of the WSO**

The World Stroke Academy is the core educational activity of the World Stroke Organization, and provides high quality stroke education to health professionals.

**On the World Stroke Academy you have access to:**

- conference webcasts and posters
- podcasts and interviews
- e-learning modules
- journal articles
- webinars
- case studies
- and more!

We have access to expert stroke professionals, who support us to develop an extraordinary array of content in multiple languages.

We invite you to contact us if you are interested in submitting clinically applicable education components, this includes, case studies, clinical practice guidelines or science blogging.

We also welcome any feedback on our educational offer and always welcome new ideas or suggestions for improvement – so please get in touch with us!

**Contact:**

[education@world-stroke.org](mailto:education@world-stroke.org)

We are committed to supporting access to high quality, globally relevant stroke education. In addition to the free access to education modules and resources available via the World Stroke Academy, stroke professionals, researchers and advocates can now access our WSO webinars.

The webinars have run since March 2020 and are free and open to anyone interested in stroke care, research and evidence-based stroke medicine.

## Call for webinar and e-learning proposals!

**We actively encourage WSO members and non-WSO bodies to submit ideas and topics for future webinars.**

- ▶ You can submit your webinar proposal here:  
<https://form.jotform.com/201613209570346>
- ▶ You can submit your e-learning proposal here:  
<https://form.jotform.com/210266068108350>

## Support the WSA by making a contribution

The sustainability of the WSA mission depends on donations. The WSA needs your support to carry on educational activities in low-income countries and communities with low access to stroke care resources.
