

APRIL 2022

WORLD STROKE ACADEMY

News and updates from the WSO Educational Platform

WSA IS ACCEPTING NEW PROPOSALS

➤ *E-LEARNING MODULES*

➤ *CASE STUDIES*

➤ *WEBINARS*

Call for proposals!

The World Stroke Academy has been organizing a series of international webinars, as well as e-learning modules, case studies, podcasts and other educational activities to compensate for the loss of face-to-face meetings and conferences and to support clinicians struggling to maintain stroke services and research during the pandemic.

We are calling for proposals to build the WSA e-learning module, case study, webinar and podcasts series that:

- address a literature gap
- address a specific need
- highlight a recent important guideline
- give an update on a controversial/challenging topic, hence being beneficial to clinicians and allied health professionals working in the field of stroke
- share your knowledge in a particular subject area

[Submit your proposal\(s\) here!](#)

Proposals will be accepted until May 31st.

• Guidelines for Stroke Rehabilitation & Recovery

- Prof. Marion Walker: International Stroke Rehab and Recovery Alliance (ISRRRA)
- Prof. Julie Bernhardt: Early rehabilitation after stroke
- Prof. Sean I. Savitz: What's the Evidence for Current Guidelines and What are the Gaps
