

MAY 2022

WORLD STROKE ACADEMY

News and updates from the WSO Educational Platform

Thank you for joining us at ESOC 2022!

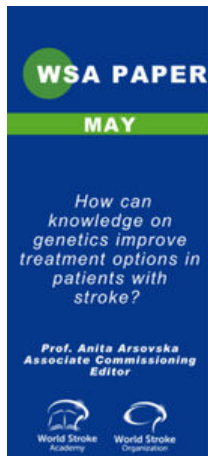

It was wonderful to see everyone at the 8th European Stroke Congress (ESOC) in Lyon at the beginning of May! We came together to learn about the latest trial results, new technologies, hear innovative ideas, network, meet colleagues, visit booths and more! Thank you to everyone who visited the World Stroke Organization booth and came to learn more about our Academy activities!

May Paper of the Month

A new WSA feature selected for highlighting original research in the field of neurology, by WSA Associate Commissioning Editor, Prof. Anita Arsovska

Daghlas I, Sargurupremraj M, Danning R, et al. Migraine, stroke, and cervical arterial dissection: shared genetics for a triad of brain disorders with vascular involvement. *Neurol Genet.* 2022;8(1):e653.7

This month: How can knowledge on genetics improve treatment options in patients with stroke?

Call for proposals!

The World Stroke Academy has been organizing a series of international webinars, as well as e-learning modules, case studies, podcasts and other educational activities to compensate for the loss of face-to-face meetings and conferences and to support clinicians struggling to maintain stroke services and research during the pandemic.

Submit your proposals [here](#)!

Upcoming webinars

June 8th, 11am (CEST)

• WSO Global Policy Webinar: Digital solutions in stroke prevention

World Stroke Organization

Global Policy Webinar:
