Upcoming webinars

• Stroke In Women

MARCH 15TH, 5PM (CET)

TOPICS

- Dr. Hrvoje Budincevic (Croatia): Hypertension and stroke: is there a gender difference?
- Dr. Cristina Tiu (Romania): CVST in pregnancy and puerperium
- Dr. Cheryl Bushnell (USA): The role of menopause and hormone therapy in stroke risk in women

[**REGISTER HERE**](#)

• A New Era in Cardiac Rhythm Monitoring Post-Stroke

MARCH 29TH, 6PM (CET)

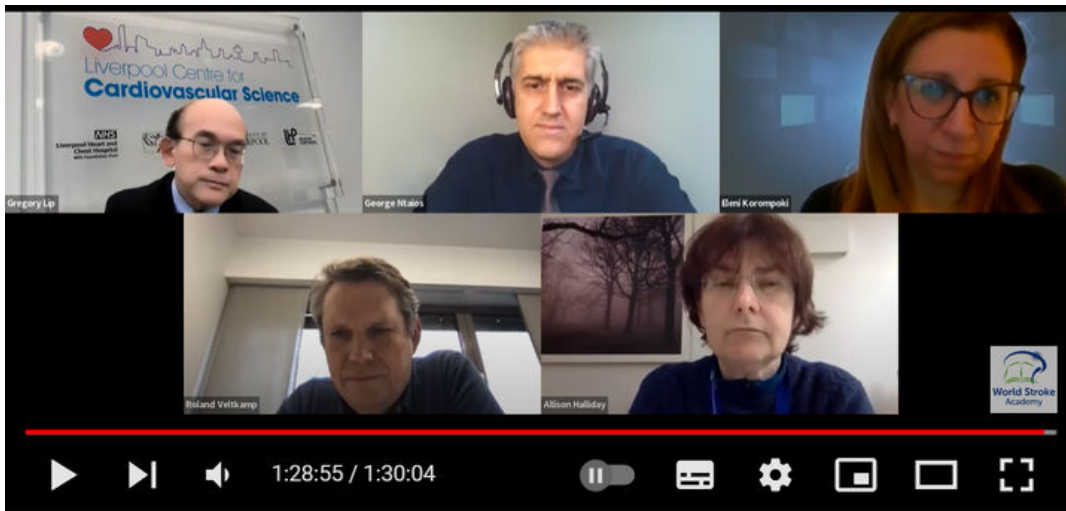

TOPICS:

- Renate Schnabel – Practical approach on cardiac monitoring after stroke? (Germany)
- Mira Katan – Biomarkers and AF detection after stroke (Switzerland)
- Jason Andrade – Long-term monitoring and AF burden-associated stroke risk in the general population (Canada)
- Luciano Sposato – Risk profile of different AF types in stroke patients (Canada)

[**REGISTER HERE**](#)

In case you missed it...

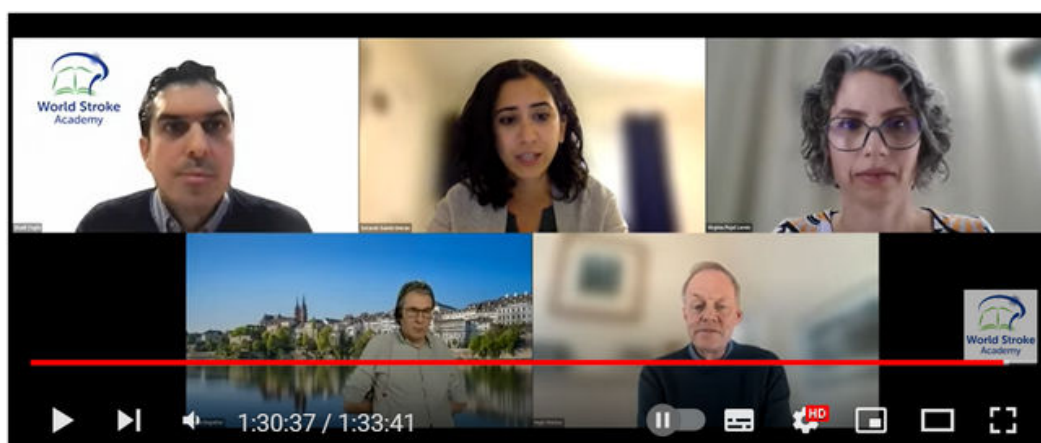

- **Stroke: integrated care for a challenging syndrome**

- Integrated Stroke Care (Gregory Lip – Liverpool, UK)
- Restart oral anticoagulation after intracerebral haemorrhage: yes or no, and when? (Eleni Korompoki – Athens, Greece)
- What did we learn from the ACST-2 trial about carotid intervention in asymptomatic patients with severe stenosis? (Alison Halliday – Oxford, UK)

[WATCH HERE](#)

- **Cervical Artery Dissection: Diagnosis, Treatment, and Outcome**

- Diagnosis and diagnostic evaluation of cervical artery dissection (Setareh Salehi Omran – USA)
- Risk of ischemic stroke and recurrent dissection (Shadi Yaghi – USA)
- Stroke prevention strategies debate: pro-anticoagulation (Stefan Engelter – Switzerland) and pro-antiplatelet (Hugh Markus – England)

Welcome to the WSA team, Laavanya!

Join us in welcoming Laavanya as the new **WSA Research Manager**! Laavanya Dharmakulaseelan is a neurology resident physician at the University of Toronto, Canada. She completed her Medical Degree and Master of Engineering at the University of Toronto. Laavanya is an aspiring stroke neurologist who has a passion for advocating for patients with neurological disease. She continues to be involved in stroke research and has a special interest in medical education. As the Research Manager of the WSA, she hopes to support the growth of the WSA's research in medical education and find innovative ways for WSA members to stay up-to-date with emerging areas of research and best practices in stroke.
