Post-stroke discharge checklist
Hemorrhagic Stroke

Dr. Matias Alet and Dr. Leonardo Carbonera

The post-stroke hospital discharge checklist has been developed to help healthcare professionals to arrange and prepare patients and families for hospital discharge after a stroke. This checklist follows an order set format and contains recommendations for post-stroke hospital discharge in patients after a hemorrhagic stroke. This checklist is intended to be completed by the medical team before patient discharge. The specific actions described in the checklist can be further adapted to be implemented locally as standardized patient order set.

STROKE INFORMATION

Symptoms Onset / Last Time Seen Well: ____/____/____ : ____:____

NIHSS at discharge: _____ and mRS at discharge: _____

Type of Hemorrhagic Stroke:

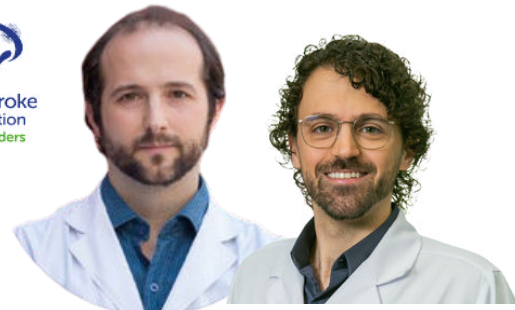

Intraparenchymal Hemorrhage

Where?: Basal Ganglia Thalamus Brainstem Cerebellum Lobar

Subarachnoid Hemorrhage

Origin found?: Aneurysmal Peri-mesencephalic Subdural Hematoma

Epidural Hematoma Other: _____

New WSA Podcast site!

The World Stroke Academy podcast offers interviews with key figures in the field of stroke research and highlights current topics and issues.

The screenshot shows the World Stroke Academy podcast page. At the top left is the WSA logo and the text 'World Stroke Academy'. Below it, statistics show 496 Downloads and 36 Episodes. There are 'Share' and 'RSS' buttons. A description states: 'The World Stroke Academy podcast offers interviews with key figures in the field of stroke research and highlights current topics and issues.' The main content area features a large image of a brain with neural connections. To the right, a 'Welcome!' section reads: 'Join us as we delve into the latest advancements in stroke care, diagnosis, treatment, and rehabilitation. Our expert guests, including leading neurologists, researchers, and clinicians, share their expertise and experiences to keep you up-to-date with the ever-evolving field of stroke management. Whether you're a seasoned practitioner or a passionate student, our podcast offers a deep dive into critical topics, case studies, and innovative approaches that can enhance your skills and improve patient outcomes. Tune in regularly to expand your expertise, connect with peers worldwide, and make a significant impact on stroke care. Welcome to the World Stroke Academy Podcast - where knowledge meets action in the fight against stroke.' Below this are two episode listings. The first is 'WSA June 2023 Paper of The Month: Interview to Prof. Craig Anderson - INTERACT3' dated Monday Jun 05, 2023. It includes a description of the paper, a link to the full text, and engagement metrics (1 Like, 16 Downloads, Share). The second is 'CVT Summit 2023 Highlights - Interview to Dr. Jonathan Coutinho' dated Monday Jun 05, 2023. It includes a description of the summit, and engagement metrics (1 Like, 9 Downloads, Share).
